

CELEBRATING YOUR SUPPORT

Philanthropic giving has shaped North York General Hospital (NYGH) for close to 50 years.

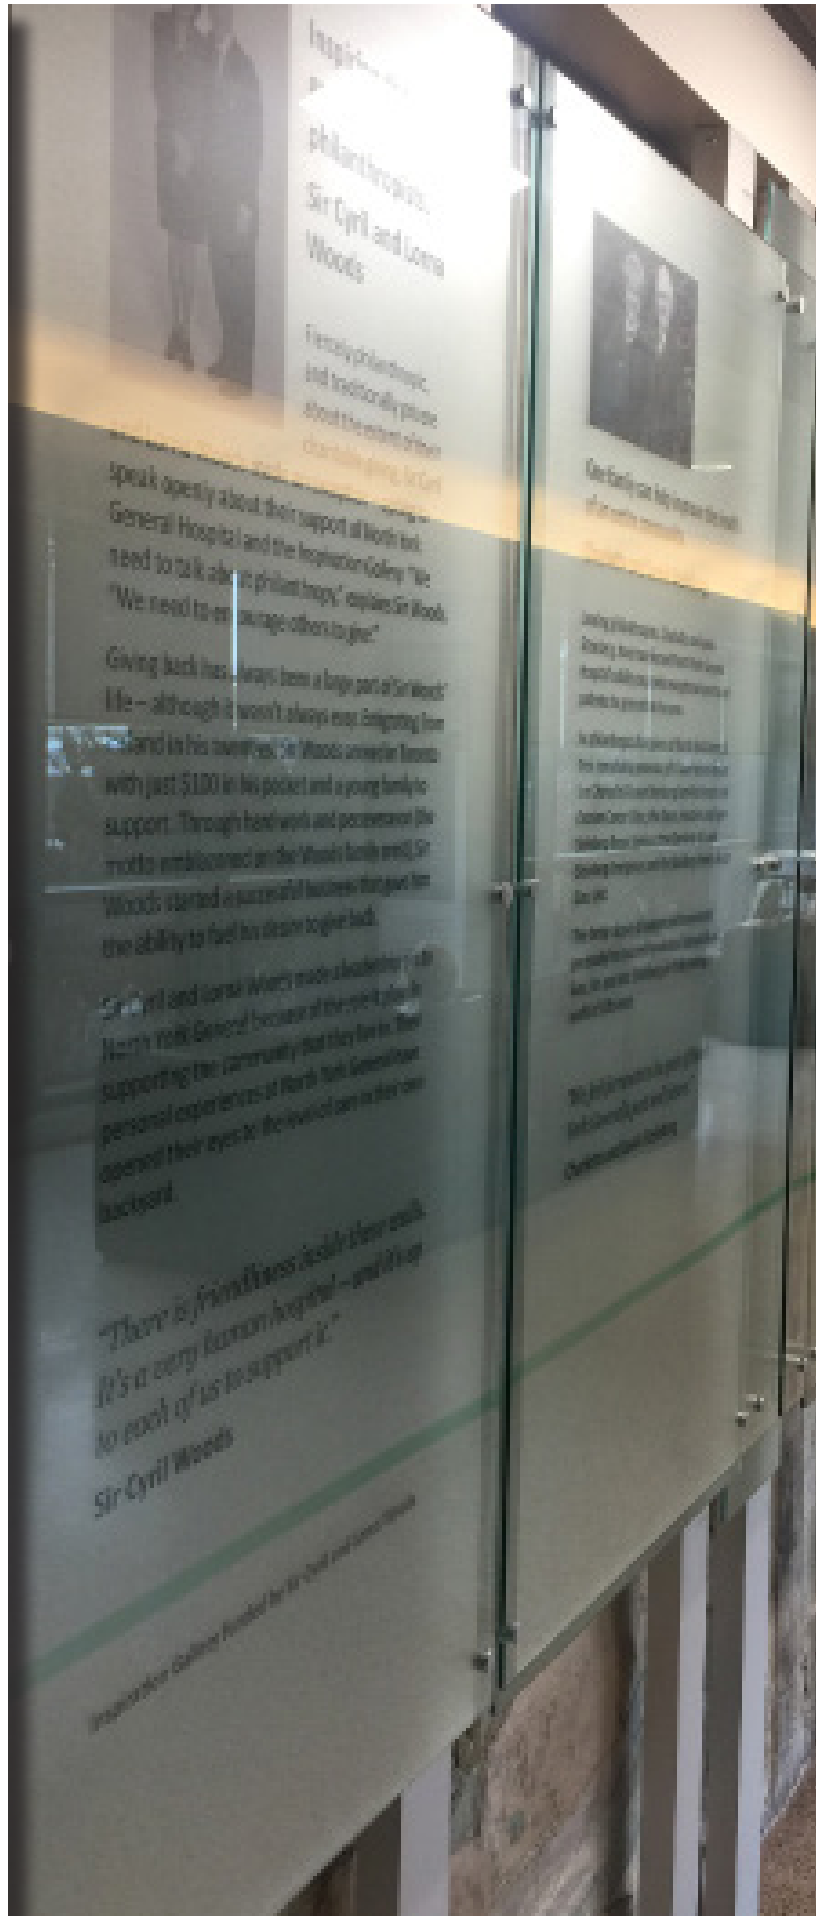

Overwhelming generosity lives within our bricks and mortar; it's in our equipment and programs that save lives every hour of the day; and it's reflected in our shared belief that we each have a responsibility to help NYGH go beyond care, from birth, to end-of-life, and everything in between.

While some donors have been a part of our hospital's history for decades, others are just beginning to establish their own legacies.

One common thread weaves our supporters together: each has a passion for improving the health and wellbeing of the hundreds of thousands of people and families that call NYGH their hospital.

We are grateful to each and every one of our supporters, for understanding the central role that NYGH plays in caring for our community.

"As we approach NYGH's 50th year in 2018, we celebrate all of our donors and supporters who have helped make our hospital the beacon of care it is today." – Terry Pursell, President & CEO, North York General Foundation
